29.0	12/7/2022	Added information about the 2022.11 Monthly Hotfix update in Addendum CC.

## 1 Introduction

This Windows10 Hot Fix Update package installs the applicable .Net and Windows 10® hot fixes issued by Microsoft onto Hyosung ATMs and TCRs. All Windows 10 hot fix packages are ‘cumulative’ and are released as update packages for ease of installation. To be current on hot fixes you only need to install the latest update package available.

These release notes list the Microsoft KB numbers for the hot fixes included in this package. To view detailed descriptions of these hot fixes, refer to the following Microsoft link:

<https://support.microsoft.com>

**Starting in August 2021, this package will be released monthly instead of quarterly.**

## 2 Audience

This document is written for financial institution and ATM network personnel who are deploying Hyosung ATMs or TCRs, as well as Hyosung professional services personnel and field service engineers who are supporting those deployments.

## 3 Hardware Requirements

None

## 4 Software Requirements

This package should be installed on ATMs and TCRs running the Windows 10 version of any Hyosung application.

## 5 Distribution Media

This package is distributed with the package name, version number and date of release listed in the package name; for example, **Win10HotFixUpdate\_01.00.00** was the name of the first general release of the quarterly update package and **Win10Hotfix\_Monthly 2021.08** is the name of the first monthly update release.

## 6 Windows 10 Hot Fix Package Advisory

There are no advisories with this package.

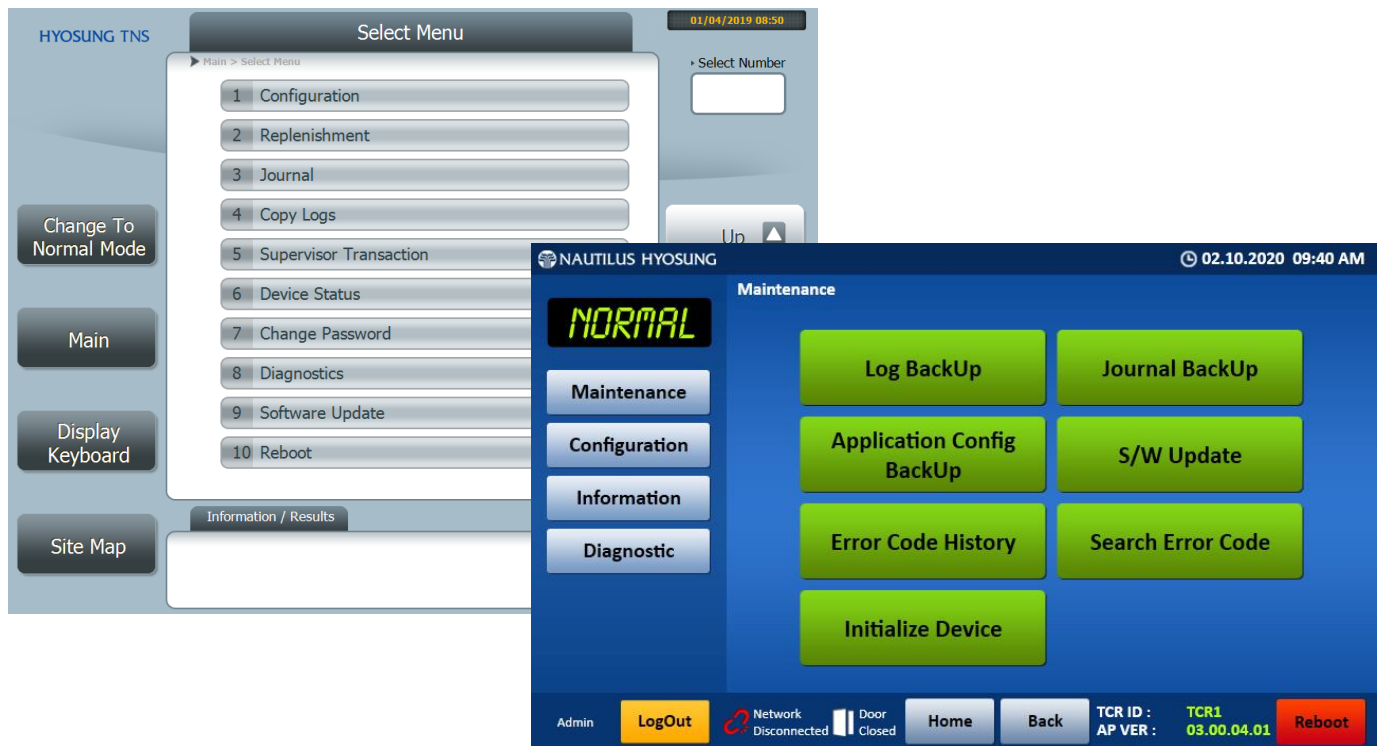

## 7 Package Installation Instructions

Updates from Hyosung are typically delivered to you through a link to a downloadable file. You need to download the file and then transfer the update files to removable media, such as a CD (for ATM only) or USB flash drive.

1. Click on the link provided by Hyosung and download the update .zip file to an appropriate location on your PC.
2. After the download completes, open the .zip file. You will see a folder that contains the update files.
3. Open the folder and copy the contents to the root of either a USB flash drive or CD.

You will be copying 3 installation control files and a folder that contains the update package files.

4. Insert the update USB or CD into the appropriate media reader/port on the ATM or TCR.
5. If you are running MoniPlus2 on your ATM or TCR, enter the Operator program.  
If you are not running MoniPlus2, navigate to the root of the media and select the SWUpdate.exe program to start the installation. The update should run to completion and then reboot the ATM or TCR to end.
6. From the Operator program, navigate to the Software Update menu item on the Select menu on the ATM or the S/W Update menu item on the Maintenance menu of the TCR.

## Windows 10 Hot Fix Update Software Release Notes

7. Select Software Update or S/W Update from the menu.
8. Press Execute. The update will start immediately and the ATM or TCR will reboot when the update finishes.
9. Remove the update media while the ATM or TCR is rebooting. After the reboot, you will return to the Operator program.
10. To verify that this package installed successfully, navigate to the Installed Packages screen on the ATM or Package Versions screen on the TCR.

The screen displays a list of all the installed packages as shown below. Ensure that the Win10HotFixUpdate package is listed as installed and the Status is listed as Good.

If the package does not display in this list after you install it, or if the Status is Bad, contact Hyosung technical support:

- Email: [techsupport@nhausa.com](mailto:techsupport@nhausa.com)
- Phone: 877-HYOSUNG (496-7864)

The top screenshot shows the 'Installed Packages' screen. It features a table with the following data:

Name	Installed	Status
Standard-NBS-02.00.39.00	08/22/2017	Good
Standard-NBS-02.00.42.00	09/08/2017	Good
Win7HotFixUpdate-01.00.08	09/07/2017	Good

The bottom screenshot shows the 'Package Versions' screen. It features a table with the following data:

Name	Installed	Status
Channel-TCR-01.00.00.00	09/17/2019	Good
MONIACCTCR-V01.00.39.01-20190528	09/17/2019	Good
MS500ChannelWin10-03.00.18.00.01	09/17/2019	Good
NHSecurity-Standard_V010005	09/17/2019	Good
Standard-TCR-03.00.18.00	09/17/2019	Good

TCR-Update-03.00.25.00	09/14/2020	Good

The bottom screenshot also shows a 'NORMAL' status indicator and a 'Next Page' button.

## **A Win10HotFix Package Version 01.00.00 Addendum**

This package is the initial quarterly hot fixes release package by Hyosung for the Windows 10 version of MoniPlus2 02.03.xx. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB4132216

KB4284833

KB4287903

## **B Win10HotFix Package Version 01.00.01 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 02.03.xx that are available through Q3 2018. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB4132216

KB4457131

KB4457146

## **C Win10HotFix Package Version 01.00.02 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 02.03.xx that are available through Q4 2018. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB4132216

KB4465659

KB4471331

KB4483229

## **D Win10HotFix Package Version 01.00.03 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 02.03.xx that are available through Q1 2019. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB4485447

KB4489889

KB4489907

## **E Win10HotFix Package Version 01.00.04 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 02.03.xx that are available through Q2 2019. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB4503308

KB4503537

KB4509475

## **F Win10HotFix Package Version 01.00.05 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 02.03.xx that are available through Q3 2019. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB4512574

KB4516115

KB4522010

## **G Win10HotFix Package Version 01.00.06 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 02.03.xx that are available Q4 2019 and through January 2020. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB4516115

KB4520724

KB4534271

## **H Win10HotFix Package Version 01.00.07 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 02.03.xx that are available through Q1 2020. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB4537759

KB4540723

KB4541329

## I Win10HotFix Package Version 01.00.08 Addendum

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 02.03.xx that are available through Q2 2020. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB4561600

KB4561616

KB4562561

## **J Win10HotFix Package Version 01.00.09 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 02.03.xx that are available through Q3 2020. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB4561600

KB4576750

KB4577015

## **K Win10HotFix Package Version 01.00.10 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 02.03.xx that are available through Q4 2020. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB4576750

KB4593226

## **L Win10HotFix Package Version 01.00.11 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 02.03.xx that are available through Q1 2021. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB5001078

KB5001633

## **M Win10HotFix Package Version 01.00.12 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 02.03.xx that are available through Q2 2021. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB5001402

KB5004948

This package also addresses the MS Win10 Print Spooler Vulnerability recently identified by Microsoft. Refer to this Microsoft link, <https://msrc.microsoft.com/update-guide/vulnerability/CVE-2021-34527>, for information on this issue.

## **N Win10HotFix Monthly Package 2021.08 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 that are available through August 2021. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB5001402

KB5005043

This package also contains the registry fix for the printer PointAndPrint vulnerability. Refer to this Microsoft link, <https://msrc.microsoft.com/update-guide/vulnerability/CVE-2021-34527>, for information on this issue.

## O Win10HotFix Monthly Package 2021.09 Addendum

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 that are available through September 2021. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB5005573-x64

KB5005698-x64

This package also contains the registry fix for the printer PointAndPrint vulnerability. Refer to this Microsoft link, <https://msrc.microsoft.com/update-guide/vulnerability/CVE-2021-34527>, for information on this issue.

## **P Win10HotFix Monthly Package 2021.10 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 that are available through October 2021. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB5005698-x64

KB5006669-x64

This package also contains the registry fix for the printer PointAndPrint vulnerability. Refer to this Microsoft link, <https://msrc.microsoft.com/update-guide/vulnerability/CVE-2021-34527>, for information on this issue.

## **Q Win10HotFix Monthly Package 2021.11 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 that are available through November 2021. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB5005698-x64

KB5007192-x64

This package also contains the registry fix for the printer PointAndPrint vulnerability. Refer to this Microsoft link, <https://msrc.microsoft.com/update-guide/vulnerability/CVE-2021-34527>, for information on this issue.

## R Win10HotFix Monthly Package 2021.12 Addendum

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 that are available through December 2021. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB5005698-x64

KB5008207-x64

This package also contains the registry fix for the printer PointAndPrint vulnerability. Refer to this Microsoft link, <https://msrc.microsoft.com/update-guide/vulnerability/CVE-2021-34527>, for information on this issue.

## **S Win10HotFix Monthly Package 2022.01 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 that are available through January 2022. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB5005698-x64

KB5009546-x64

This package also contains the registry fix for the printer PointAndPrint vulnerability. Refer to this Microsoft link, <https://msrc.microsoft.com/update-guide/vulnerability/CVE-2021-34527>, for information on this issue.

## **T Win10HotFix Monthly Package 2022.02 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 that are available through February 2022. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB5005698-x64

KB5010359-x64

This package also contains the registry fix for the printer PointAndPrint vulnerability. Refer to this Microsoft link, <https://msrc.microsoft.com/update-guide/vulnerability/CVE-2021-34527>, for information on this issue.

## **U Win10HotFix Monthly Package 2022.03 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 that are available through March 2022. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB5011495-x64

KB5011570-x64

This package also contains the registry fix for the printer PointAndPrint vulnerability. Refer to this Microsoft link, <https://msrc.microsoft.com/update-guide/vulnerability/CVE-2021-34527>, for information on this issue.

## V Win10HotFix Monthly Package 2022.04 Addendum

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 that are available through April 2022. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB5012596-x64

KB5011570-x64

This package also contains the registry fix for the printer PointAndPrint vulnerability. Refer to this Microsoft link, <https://msrc.microsoft.com/update-guide/vulnerability/CVE-2021-34527>, for information on this issue.

## **W Win10HotFix Monthly Package 2022.05 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 that are available through May 2022. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB5013952-x64

KB5014026-x64

This package also contains the registry fix for the printer PointAndPrint vulnerability. Refer to this Microsoft link, <https://msrc.microsoft.com/update-guide/vulnerability/CVE-2021-34527>, for information on this issue.

## **X Win10HotFix Monthly Package 2022.06 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 that are available through June 2022. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB5014702-x64

KB5014026-x64

This package also contains the registry fix for the printer PointAndPrint vulnerability. Refer to this Microsoft link, <https://msrc.microsoft.com/update-guide/vulnerability/CVE-2021-34527>, for information on this issue.

## Y Win10HotFix Monthly Package 2022.07 Addendum

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 that are available through July 2022. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB5015808-x64

KB5016058-x64

This package also contains the registry fix for the printer PointAndPrint vulnerability. Refer to this Microsoft link, <https://msrc.microsoft.com/update-guide/vulnerability/CVE-2021-34527>, for information on this issue.

## **Z Win10HotFix Monthly Package 2022.08 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 that are available through August 2022. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB5016622-x64

KB5017095-x64

This package also contains the registry fix for the printer PointAndPrint vulnerability. Refer to this Microsoft link, <https://msrc.microsoft.com/update-guide/vulnerability/CVE-2021-34527>, for information on this issue.

## **AA Win10HotFix Monthly Package 2022.09 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 that are available through September 2022. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

KB5017305-x64

KB5017396-x64

This package also contains the registry fix for the printer PointAndPrint vulnerability. Refer to this Microsoft link, <https://msrc.microsoft.com/update-guide/vulnerability/CVE-2021-34527>, for information on this issue.

## **BB Win10HotFix Monthly Package 2022.10 Addendum**

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 that are available through October 2022. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

Kb5017396-x64

Kb5018411-x64

This package also contains the registry fix for the printer PointAndPrint vulnerability. Refer to this Microsoft link, <https://msrc.microsoft.com/update-guide/vulnerability/CVE-2021-34527>, for information on this issue.

## CC Win10HotFix Monthly Package 2022.11 Addendum

This package installs all applicable hot fixes for the Windows 10 version of MoniPlus2 that are available through November 2022 for Windows 10 version 1607 LTSC Build 14393. Refer to the following Microsoft link to obtain details on these fixes:

<https://support.microsoft.com>

Kb5017396-x64 - Servicing stack update for Windows 10,

- More information: <https://support.microsoft.com/help/5017396>

Kb5019964-x64 - Cumulative Update for Windows 10,

- More information: <https://support.microsoft.com/help/5019964>

Kb5021039-x64 - Dynamic Update for Windows 10,

- More information: <https://support.microsoft.com/help/5021039>

This package also contains the registry fix for the printer PointAndPrint vulnerability. Refer to this Microsoft link, <https://msrc.microsoft.com/update-guide/vulnerability/CVE-2021-34527>, for information on this issue.
